TIVON LEGACY

Established in 1963, Tivon Fine Jewellery has remained a family affair, with a deep-rooted passion for fine gems and jewellery. From our humble beginnings, we have stayed true to our ethos of superb quality, true rarity and fine luxury above all else.

Named after its founders - The Tivon Family - the company is now 2nd generation family-owned & run, with over 60 years of experience & excellence.

The business was established in 1963 by Israel Tivon, who worked as a cutter of fine diamonds. In his travels, Israel fell in love with South Africa & in 1976 he took the decision to permanently relocate the business (along with the family) to their new home and base.

Evolving into a wholesale and manufacturing business, the business thrived. 2003 saw an expansion to the UK, with Ariel Tivon taking the helm, in order to focus on bringing Tivon creations to a wider international audience.

OVER 60 YEARS OF EXPERIENCE & EXCELLENCE

*A PASSION FOR COLOUR
AND EXQUISITE GEMS*

Like a beautiful painting, achieving the perfect balance between frame & subject matter is critical. Attention to the artwork is paramount but the finesse of a fine frame helps captivate the eye & ensure the overall aesthetic is transformative.

For this reason, we dedicate ourselves to finding & using the finest gemstones - nature's true artworks - and framing them with our bespoke designs. In this way, we ensure one is captivated by the balance of aesthetic & the beauty of the gemstone.

THE GEMSTONE IS ALWAYS THE HERO!

FINE-ZAMBIAN-GREEN EMERALD

An heirloom gem – also referred to as a traditional gem – is a gem that has stood the test of time. Revered for centuries & handed down from generation to generation, certain gems attain the special designation as heirlooms. These usually comprise of Diamonds, Rubies, Sapphires & Emeralds.

In truly fine quality, their values seldom fade and their beauty rarely diminishes.

There is a misnomer that all gems are selected, graded & cut in the exact same way. However, there are some things that cannot be gleaned in textbooks. Some secrets only come with experience.

At Tivon we ensure each gemstone stands out in every way & for all the right reasons. We select only the top 5% of each gem category, ensuring that the gemstone is precision cut, beautifully clear, that there is strength of colour & even saturation, and that each & every gem is specially faceted to elevate a gem to its full potential.

Most importantly, we look for the inner fire within a gem - that special something that will set it apart from all rivals. That skill has been honed over decades and is the reason a Tivon gem stands out for all the right reasons.

It has long been held that Tivon is renowned for its second-to-none fine Tanzanite collection.

With a personal obsession & love affair for this fine gem, Ariel Tivon championed this gem in Tivon's first foray into the UK. With an unparalleled colour made up of a mixture of royal blues & purples, and with flashes of burgundy, this fine gem evokes a feeling of luxury & royalty.
